

## PDF Export

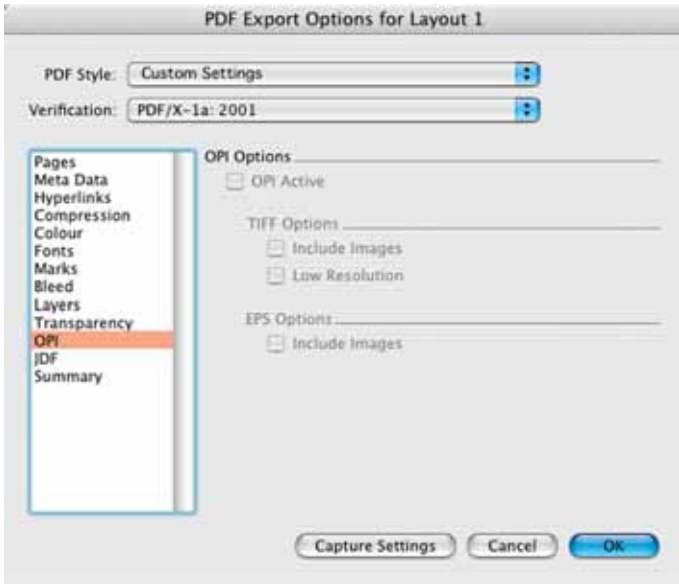

Creating a good quality PDF file suitable for press purposes is very straightforward. Following the screen grabs over the next few pages will result in good quality PDF's every time.

Please note that these settings have been configured for CMYK output. for spot colour output, select CMYK & spot in the colour tab.

Once the settings have been adjusted, clicking captured settings will save the options, thus enabling them to be used at a later date.

For further help and advice on prepress issues, please visit our website:

[www.cambrian-printers.co.uk/support](http://www.cambrian-printers.co.uk/support)

Alternatively, please get in touch with your CSR or Sales Contact who will be happy to arrange for one of our prepress technicians to contact you direct.
